

**HAPS app manages house account charges.**

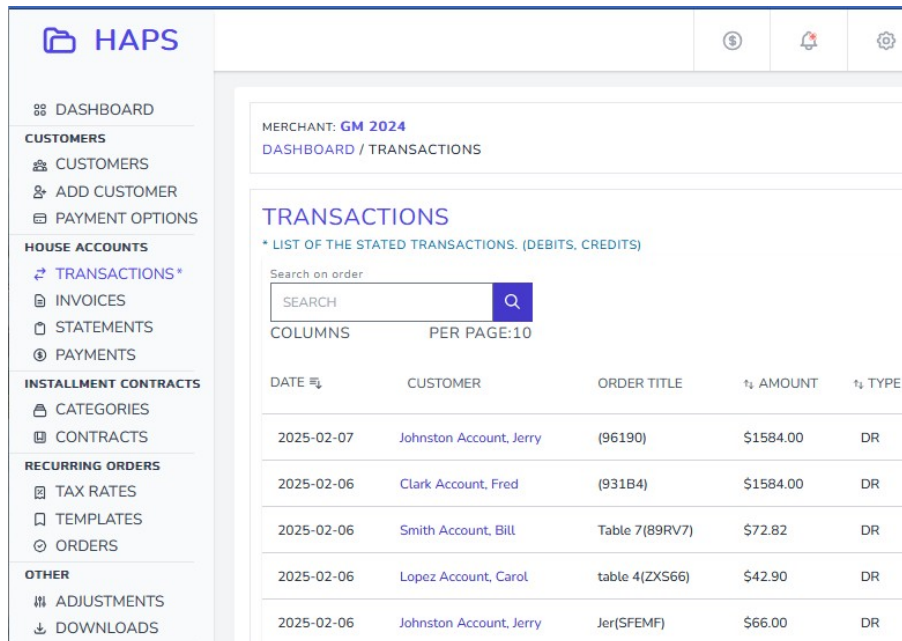

Any business that allows regular customers to charge an order, and pay after month end, needs an accounts system to keep track of customers account balances and payments.

**The benefit of using the HAPS app is that house account charges and payments on Clover are instantly and automatically in SYNC with HAPS accounts receivable web-app.**

A Clover POS order can be charged to a house account as either (On Account) to update balance instantly, or (For Invoice) so that HAPS includes this order in month end Invoice.

When an order is charged on Clover POS and paid using HAPS tender, that order is instantly saved into the HAPS accounts receivable, in real time. (HAPS web-app example below):

**Member clubs can use HAPS to manage monthly recurring member fee subscriptions, and to charge members bar-restaurant dining orders.**

HAPS will automatically generate month end invoices, which include members fees & dining orders.

If Clover merchants do not use HAPS, they will need to spend extra hours each week to manually export charged orders & payments to spreadsheets, and import those to a 3<sup>rd</sup> party accounting app at end of business day.

**HAPS Templates make it easy to manage different member fee monthly charges:**

Merchants can specify templates for different recurring members monthly charges, such as Family membership, Junior member fee, or Dining only membership, or Slip rent for a boat at a Marina.

Example of an order Template for a Slip rental charge at a Marina

NO.	NAME	PRICE (WITHOUT TAX)	DEFAULT TAXES	TAX AMOUNT	TOTAL
1	Monthly slip rent 30 ft	\$120.00	YES	\$12.00	\$132.00
<b>VALUE (NO TAX): \$120.00</b>		<b>CURRENT TAX (%): 10 SYNC</b>		<b>VALUE: \$132.00</b>	

Example of an order Template for a Golf Club Monthly Members fees

NO.	NAME	PRICE (WITHOUT TAX)	DEFAULT TAXES	TAX AMOUNT	TOTAL
1	Members Monthly Fee	\$125.00	NO	\$0.00	\$125.00
<b>VALUE (NO TAX): \$125.00</b>		<b>CURRENT TAX (%): 10 SYNC</b>		<b>VALUE: \$125.00</b>
